

Sports Awareness and Engagement Campaign

The Sports Awareness and Engagement Campaign aims to promote active lifestyles, foster community spirit, and encourage participation in physical activities. Through a combination of on-ground events and online promotions, the project will highlight the health benefits, teamwork skills, and social connections that sports provide. By engaging local residents, students, and sports enthusiasts, the campaign will inspire long-term involvement in athletic activities and create a stronger, healthier community.

Completed Task List:

- Conducted research on the benefits of sports.
- Created Google Drive shared folder and organized subfolders.
- Drafted and reviewed the project proposal.
- Uploaded draft and final proposal to GitHub repository.
- Shared updates, files, and progress reports via Slack channel.
